

How it works

The HI-LIFT offers a unique, simplified way to get your wheelchair into your vehicle. With one hand on your chair, maneuver it into the mid-row of your minivan with ease.

Features

- Fully motorised lifting and lowering functions
- Motorised in and out swing mechanism
- Unique track system for added control
- Compact design takes up very little space

Specifications

- Maximum capacity: 75 lbs
- Designed for manual wheelchairs

HI-LIFT

Wheelchair lift

Reliable

The HI-LIFT is a compact, distinctive lift for manual wheelchairs, designed for the mid-row position of minivans. The HI-LIFT's powered features make it a breeze to use and make getting your wheelchair in and out of your vehicle almost effortless.

Alone or as a pair

The HI-LIFT installs into the mid-row position of various minivans without structural modification to the vehicle. It can be used alone or as a pair with the XL-SEAT.

Adaptive equipment

Our products qualify as adaptive equipment and are eligible for reimbursement under the terms of Mobility programs offered by various vehicle manufacturers.

About us

We take our customers' safety very seriously. We are dedicated to manufacturing quality mobility equipment. Our products undergo a strict certification process.

Certification of our products involves different tests such as: crash testing, cycle testing and weight capacity testing. We are proud to offer a line of products that exceed the industry's standards.
